

I was impressed by the performance of Omega 3 for dogs. All my dogs enjoyed the taste and licked their bowls clean. I noticed bitches kept their coat condition after heat, which was a plus for me and my older dog is now moving well again.

I would certainly recommend.

Taz loves Essential Omega 3, we've noticed an improvement in his general condition and it's made his coat really shiny. It's definitely something we would like to continue with.

Barney is my 2 year old Tibetan Terrier, he has always been a fussy eater but from the first use of the omega3 sprinkles he eats every morsel in the bowl. It's brilliant I've tried everything to get him to eat properly and now I have no problem.

I tried my dog on Essential omega3 and he absolutely loved it, he is 11 now and needs supplements to keep him moving properly, the sprinkles made him act like a puppy again, and he's even keener to gobble his meals. I have noticed a difference in his coat and I get comments from fellow dog walkers on how shiny his coat looks.

I would recommend this product, it's so easy to use and the dog loves it.

Bella my 10 year old Labrador x Rotweiler had been on prescription anti-inflammatory medicine and painkillers which just seemed to help when she needed them. Since using Vitafeed she has been more mobile, had more get up and go, is generally much happier and I don't give her the medicines anymore. It lovely to see she has her old spark back.

We have been giving Alfie Vitafeed Essential Omega 3 for four or five weeks now and find it great. We started using this because although Alfie was pretty fit and healthy his coat was a bit flat, he also used to smell a bit and also had itchy skin.

We found it very easy to use and just put two table spoons in his normal dried food each day. Alfie seems to love it which is an added bonus but the main thing is that he is now the image of health with a gorgeous coat and he doesn't smell or itch any more. We think this is a great product and would definitely recommend this to others.
